

EXTERNAL

STARSCREEN

StarScreen® is a unique fabric with a stunning textile look and hand feel. Manufactured from 100% solution dyed polyester, StarScreen is PVC free, dimensionally stable, light weight, and colourfast.

Suitable for internal or external use, StarScreen creates a pleasant diffusion of light while absorbing up to 97% of heat caused by solar irradiation.

StarScreen fabric is Teflon® treated and allergen free, making it beautiful and clever.
